BRANDING

WHY YOU SHOULD

The essence of promotion is to **make your mark on customers**

Selecting the right Promotional Product and branding it with a clever message or your unique logo can increase the perceived value of the product.

By giving a branded Promotional Product, you place yourself at the forefront of the recipient's mind, especially when they're looking for the product or service you provide.

Rather than leaving a traditional business card, consider leaving a branded Promotional Product instead.

Quite simply, when it comes to marketing, few strategies are as effective.

We provide a total-solution by a professional, dedicated team with exceptional branding know-how, ensuring fast, consistent and reliable delivery, time after time.

Because we cannot envisage a world where
Promotional Products go unbranded,

WE'VE INCLUDED THE PRICE OF BRANDING IN OUR ENTIRE GIFTING LINE...

That's right – every (brandable) product in this catalogue comes standard with branding, making it easier than ever to place your logo or message in the spotlight.

The type of branding included varies from product to product and in many cases we offer you several inclusive options to choose from. These options are contained in a table that appears with the information provided for each product and you are able to choose one of these options.

PRICE INCLUDES*

PAD (1 COL)
ENGRAVING

In this example, you are able to choose between laser engraving or one colour pad printing, in one position.

Several categories in the catalogue feature products or sets comprising multiple components. To sweeten our offering even further, we have included the price of branding on many of those components.

The information is conveyed in the same way as above, except we now state the inclusive branding options for each component.

PRICE INCLUDES*

POWER BANK	ENGRAVING PAD (1 COL)
PEN	ENGRAVING PAD (1 COL)
USB	ENGRAVING PAD (1 COL)
BOX	N/A

In this example, you may want to laser engrave your power bank, memory stick and pen or you could choose to pad print the components instead and either of these choices will be included in the price of the set. Printing the gift box will cost extra as it is not indicated as an inclusive branding option, denoted by "N/A".

With “inclusive of branding” it's **YOUR BRAND! YOUR WAY!**

“Inclusive of branding” Terms & Conditions

- Setup charges and die charges (where applicable) are additional charges
- Included branding is limited to 1 position and in the case of pad and screen print, to 1 colour (denoted by “COL” in the table)
- Should you choose to brand 2 or more colours, the price of the first colour will not be included in the price of the product and each colour will be charged for.

...and because you like to do your drinks your way,
WE ALSO OFFER A MIX & MATCH OPTION.

STEP 1: Choose your tumbler colour

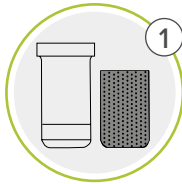

STEP 2: Choose your lid colour

Combinations illustrated are examples of colour combinations. Choose your own from the colour palette.

When ordering your mix & match tumbler, please indicate the cup and lid colour you require. For example, a yellow Americana Double-Wall Tumbler with a turquoise lid = DW-7120-Y + LID-7120-TQ

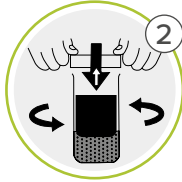

1 Add tea leaves or fresh ground coffee to outer vessel (a coarse coffee grind size is optimal).

Pour 300 - 350ml hot water over the tea leaves or coffee grounds. Leave 5cm of space at the top.

Let the leaves or grounds and hot water sit for 3 minutes.

2 Press lid onto the inner filter press. Close drinking lid. Place filter into top of outer vessel. Use gentle pressure and press filter down until fully nested.

Do not apply force. If press stops, pull press up slightly then twist. Press gently and repeat until fully nested.

3 Drink your tea or fresh French Press coffee straight from the tumbler!

RFID-BLOCKING FRONT ZIPPER-POCKET FOR YOUR PASSPORT/WALLET

What is RFID?

Radio Frequency Identification uses electromagnetic fields to communicate with RFID readers. These radio waves allow the readers to automatically identify tags e.g. chips on your credit card and read the electronically stored information. In a modern age with 'Tap and Go' facilities, becoming a victim of RFID theft is a real possibility, as someone could scan your RFID card through your pocket or wallet without your knowledge. Fortunately, radio waves are relatively easy to interrupt – RFID blocking wallets and bags are similar to a Faraday cage - designed to block electromagnetic fields and subsequently prevent any communication between the tags and readers.

Traverse Multi-Charger

is the perfect car companion, powering up your smart phones and tablets on-the-go.

Charge up to 4 mobile phones simultaneously. When 4 mobile phones are being charged at the same time, the combined output is equally distributed across the 4 ports and each phone will charge relatively slowly. For optimal charging, no more than 3 phones should be charged together. When charging a tablet, you are also able to charge one mobile phone simultaneously.

Free yourself from messy wires and take charge with our range of **WIRELESS POWER BANKS THAT ARE TRAVEL-FRIENDLY AND EASY TO USE**

Wireless powerbanks wirelessly charge wireless-charging-enabled smartphones without the need for the phone to be plugged into the power bank or the power bank to be plugged into a power supply. Simply attach the phone to the suction pad or place the phone on top of the power bank and it will begin powering up. For smartphones that are not compatible with wireless chargers, they can be recharged via a micro USB or lightning connector cable, as would be the case with any standard power bank.

HOW TO IDENTIFY LOGO24 PRODUCTS

Throughout the catalogue you will notice the **LOGO24** logo next to certain products. Wherever it appears, you can confidently select the associated **LOGO24** product and have it branded and complete for the following day.

The maximum quantity (and in certain cases minimum, too) is indicated below the icon, as is the type of branding which enables your order to be fast-tracked.

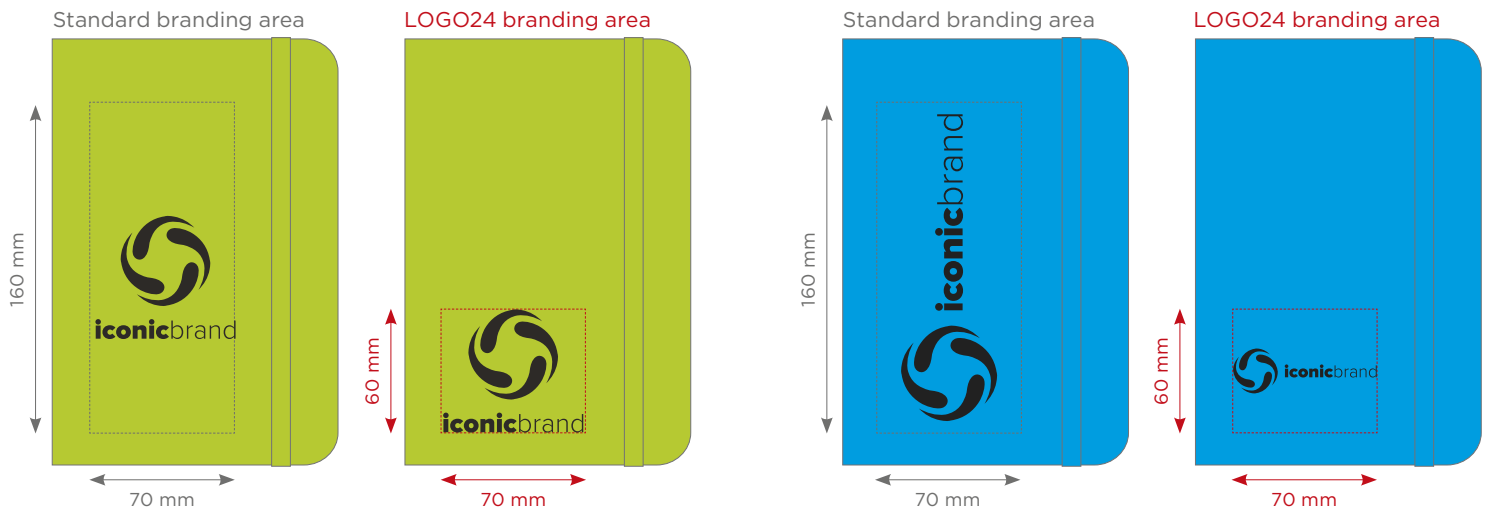

Minimum quantity = 1000
Maximum quantity = 5000
LOGO24 branding method = One colour pad print

You will also find a **LOGO24** branding guideline alongside the standard branding guideline for **LOGO24** products, indicating the position in which your artwork can be branded.

Due to the reduced lead times associated with a **LOGO24** order, the following conditions apply:

Branding outside of the demarcated **LOGO24** branding area, is not available as part of the **LOGO24** next-day offering. Artwork will always be centered within the demarcated space and printed proportionately at either the maximum width or maximum height (depending on the orientation of the logo) of the defined **LOGO24** branding area on the **LOGO24** branding guideline. See examples below:

The **LOGO24** service is available Monday to Thursday and orders must be placed and paid for by 5pm to be complete and ready for collection by 5pm the following day.

Orders placed and paid for before 12pm on Friday's will be completed by 5pm the following Monday. Orders placed after 12pm on a Friday, weekends or South African public holidays will not qualify for **LOGO24** service and will be treated as standard orders with regular branding lead times.

For comprehensive terms & conditions as well as a step-by-step LOGO24 guide, please contact your Account Manager.

THE FACTS

- We are always touching our phones, transferring bacteria to our devices.
- The average cell phone harbours more than 25,000 bacteria per square inch.
- A cell phone can be the most infected surface you come into contact with.
- People rarely clean or disinfect their phone, so germs and bacteria build up.
- What types of germs? E-coli, influenza and MRSA germs that can all cause infections.
- Safe-Guard Phone Sanitiser & Screen Cleaner has been developed to easily solve this growing problem.

I am the colours of the vibrant fabric that weave our tribes together.
 I am the music that makes us want to dance, the drum that gives us rhythm.
 I am the sports fan who stands by you, proudly singing our National Anthem.
 I am the click in every language, the nickname and the humour that slides off our tongues.
 I am the aroma from red hot coals, burning meat and the sweet taste of fruit.
 I am the wines from our vineyards and the fresh flowing water from our streams.
 I am the mirage in the blazing sun, the electric storm and the crisp winter morning.
 I am the rolling sea and the giant mountain range that shields us from the winds.
 I am a free bird, soaring in the thermal, gazing upon the wild savanna.
 I am the rich soil, the floral landscape and the raw gold beneath our earth.
 I am our heritage, our history that helps us see who we've become.
 I am the imperfections in our society that helps us realise we can do better.
 I am the handshake, the kiss, the hug that embraces our diversity.

I am South African.

NOTEBOOK BRANDING METHODS

Our extensive range provides the ideal logo-ready platform for your brand or message, but how you choose to brand is entirely up to you. With 6 different branding options available, you can keep it classy and subtle with a debossing or make it pop with a full-colour digital print.

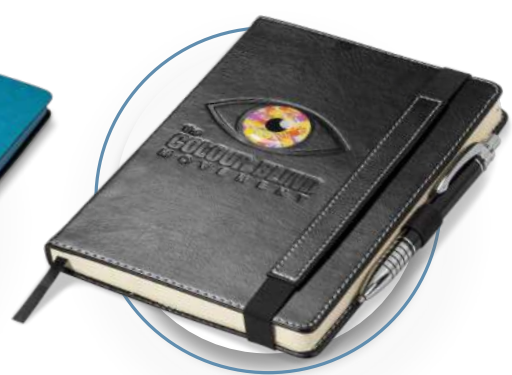

To illustrate the difference between the processes, we've provided a brief note on each, along with an image showing the result.

SCREEN PRINTING

DEBOSSING

DEBOSS & DOME
COMBINATION

DIGITAL PRINTING

FOIL HOT STAMPING

BELLY BANDS

SCREEN PRINTING

provides excellent coverage and is especially good for large logos, but in the case of our notebooks, is limited to two colours.

DOMED & DEBOSS COMBINATION BRANDING

pairs the eye-popping colour of a raised dome with the subtlety of debossing. Full-coverage debossing provides the opportunity for large and versatile branding, while the full-colour dome fits into a recessed portion of your debossed artwork to create a focal point for a key part of your message.

DEBOSSING

is a subtle and classy branding method whereby a die in the shape of a logo is pressed into the surface of the notebook using both heat and pressure, creating a permanent stamped impression with a unique 3D look.

DIGITAL PRINTING

is a high-impact branding method producing excellent clarity and photo-realistic results, and is ideal for intricate logos with multiple colours, shading, gradients and small text.

FOIL HOT STAMPING

creates an upmarket, elegant impression. Hot stamping with foil is a similar process to debossing except that a thin foil is pressed into the product to create a colour and the resulting impression is not as deep. Foils are available in copper, gold, light blue, pink & silver, silver, white, black, blue, rose gold, green, orange and red (pantone matches are not possible).

BELLY BANDS

provide a unique way to enhance your brand's visibility in a high-impact manner.

Including a full-colour, digitally printed Belly Band on your notebook is a superb way to convey an additional marketing message or add a finishing touch.

Use your belly band as a voucher to a offer a freebie or discount.

Transform your belly band into an invitation, with admission granted upon presentation.

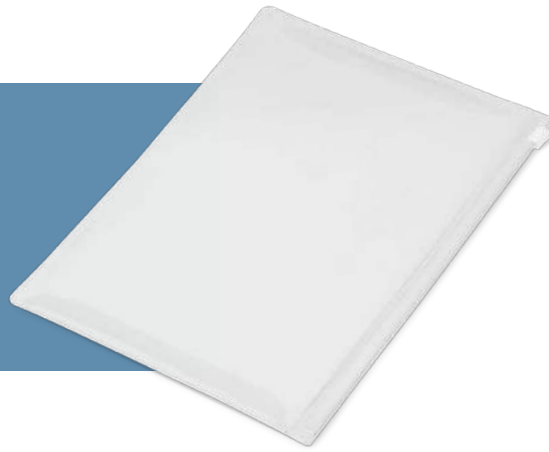

Or as an entry form to win a prize?

Be creative!

What will you do with your belly band today?
